I'm turning 40 this year. Yup. (October 19. Send me a plant.) Dang, that's supposed to be scary, isn't it? I remember... well, some of it, anyway... when I was in my 20's, thinking how horrible it must be to be over 30. And now I'm closing in on the big four-oh. God help me.

But, you know what? Even at almost-40, life is good.

Don't get me wrong. When I look at things from the "Are you what you wanted to be when you were little and the whole world was ahead of you?" scale, I scare the shit out of myself. Trust me, when I started journalism school, I had no intention of working in porn. (Then again, when I was a little guy, all I really knew was that I wanted to get the hell out of Minnesota. So, I guess I've succeeded after all.) Even so, at the end of the day, as strange as this job is, I can't even bitch about work. BearDog pays me enough money to pay my bills, and my stress level is about negative 35 on a scale of 1 to 100. I work until midnight without even realizing that I've been at it for 14 hours, sometimes. That's a pretty cool thing. Well, that and looking at naked men all day. There's that, too.

My partner Greg and I sometimes get trapped into bumbling ourselves out, basing our happiness or success level upon what we have (or don't.) I think everybody does, from time to time. It's how much of our society trains us to validate ourselves. As long as we're "keeping up with" or, better yet, "doing better than" the guy next door, life is good.

But as soon as somebody else gets something we don't have or can't afford, we start the whole process of second-guessing ourselves all over again. "Why don't I have one of those?" "If only I made more money..." "If I worked harder..." "If I'd studied for that one final instead of going to the all-night keg party, I would have gotten a better grade and a better job and..."

Yeah, whatever.

I admit, I do it. But somewhere along the road, I developed this mechanism that automatically reverts things back the other way. Instead of comparing myself to Bill Gates, I end up comparing myself to those Ethiopian kids on TV who are being served that white slop out of a bowl by somebody like Sally Strothers. And, I think to myself, as long as I'm somewhere above that, then things aren't so bad.

Sure, I don't have Puffy Combs' mansion, but I have a nice place to live. It's warm and comfortable and... well, because, after all, *I am gay*... it's probably a little neater than your average straight household. My new bed is big and warm and covered in 100% cotton 250 thread count-or-higher sheets. (I may not be rich, but I've got my standards, and cotton/poly blends don't cut it here, no matter whose name is on the label.)

I'm not dining on haute cuisine every day, but I don't remember unintentionally missing a meal in the last 20 years, and our big backyard gas grill cooks up some tasty burgers and chicken. Thanks to Greg, the refrigerator is usually full, and there are a few beers or sodas in there to wash everything down.

I don't have that silver Porsche Boxter convertible that I'd look so good in, but my car gets me where I need to go, and I haven't had to push it... yet.

I wake up every morning next to a man far more handsome and wonderful than I probably deserve. Sure, I wonder if the day will come when he'll finally look across the pillows at the drooling, slobbering, sleepy mess that I must be in the morning, and wonder what the hell he's doing here, and just leave. But, he tells me daily that he loves me and treasures me. And, I still get the sex out of him, even after 5 monogamous years. There's something to be said for that!

I've got my health. Don't ask me how. I don't eat enough vegetables. I eat too much junk and ice cream and I drink too much beer. Yet, every time I go in for my annual physical, the Doc says, "Whatever you're doing; keep it up! Everything looks great!" and proceeds to tell me how good all of my tests and blood work looks. And, somehow—even after a 5 year tour of duty as a card-carrying member of San Francisco's South of Market Welcome Wagon (which involved sticking my dick into more holes than one person should be allowed to in one lifetime) —I walked away bug-free. How in the hell?

I'm no Jack Radcliffe, but I've got working eyes and ears, a big mouth, all 5 limbs, and everything still seems to work.

I can see the blue sky, I can feel the warmth of the sun on my face, and I can fill my lungs up with air.

I've got my dog. Need I say more?

I live in a country where we elect an idiot to the highest office in the land and I can publicly criticize him without fear of retribution. (Even though I'm convinced that www.georgewbush.com has blocked my emails.)

I can bitch because Russell Crowe can't act but he still got the Best Actor Oscar, when Ed Harris' performance in "Pollock" clearly kicked everybody's ass this year.

The point I'm trying to make here is that sometimes I get all bogged down in the nuts and bolts of life. I take a lot for granted

and I should just take a deep breath and thank somebody for what I actually do have.

When we realize that we're all here for a relative micro-second in the big scheme of things, it all seems a little less serious. Look around you. Look out at the sky at night; look at the stars, and imagine the millions of galaxies, planets and civilizations. And then tell me again that your new Palm Pilot is "the most amazing thing you've ever seen."

I know there are folks out there who are suffering. I have a friend in LA who has about a month left to live. His cancer has spread throughout his body. I can't speak for everybody. I don't claim to.

But as I approach 40, I have the smarts to realize that I'm lucky, and I'm determined to appreciate what I've been given. That's my birthday gift this year.

Until next time...

In the mood for a Southern Gentleman? How about a pair? We snatched up these two handsome bucks, Matt & Blade, down in Atlanta a few months ago when we were shooting a dungeon video there. (I've GOT to start traveling to some of these things! See what I'm missin' out on? Dungeons? Cowboys? What's wrong with me? Oh yeah... that's right. I'm married. And my marriage is probably healthier if I stay home and wait for the materials to arrive. Yeah... that's it.) Anyways, these two... in a word: Yum. Big, handsome, hairy, Southern Cowboys. Hot damn. The pictures of Matt riding Blade, twirling a lasso over his head and diggin' his spurs into Blade's flanks didn't turn out though, so use your imagination there. ☿

WRITE TO BEAR

MATURE MEN

I enjoy your magazine, but I find that, as I approach middle age, I like a more mature man. The models are hot, but it would be nice to search and find a mature model to grace your magazine. I know that "bear" means different things to different folks.

I would also enjoy a column on health issues for the gay man; not just on AIDS, but other diseases. Your articles on when bear events are going to be is outdated by the time the issue reaches us in the midwest.

BEAR is a great magazine, and when my partner and I come to San Francisco each year, we stop in the store.

Keep up the great work, but please try to have at least one model of middle age.

Lairbare

E-Mail

Where the hell have you been, buddy? Damn, this confuses the heck out of me. A few months ago, a subscriber didn't renew his subscription because BEAR had become, in his words, "A bunch of fat, hairy, old men." As much as we like "fat, hairy, old men," they are not the only types of guys we love. But we publish plenty of 'em. And now, to get a letter like yours, where you say you've gotta actually "search" for mature men in BEAR.

LETTERS FROM YOU

I give up.

No, take that back. I'm back. Check out Paul in issue 54, Jack Keller here, from issue ??, Derrick from issue 59, or anybody from Classic BEAR IV - Nothin' But Daddies. Not an under-40 in the crowd. Or Pat & Ernie from Classic BEAR V, or... well, I could go on all day.

Maybe we define "mature" differently. If you're lookin' for 80-plus year-old guys with one Rockport in the grave;

the wittke wire

Me and my bear scout The Dukester were channel surfing the other night when we were treated to a parade of commercials and clips featuring a wide array of hairy actors. The Dukester's been keeping notes for suggestions for this column for about two years now, but this was the first time a whole slew of men he had told me about flashed by in rapid succession. The Dukester greeted each with a, "See?! I told you about this guy last week / month / year. Isn't he great?" And I realized that The Dukester might be almost as good as me at snorting out the furry truffles in the dirt of the mass media.

First up was the Visa Check Card commercial with the guy who's getting a tattoo of "Donna" put on his biceps. The joke is that the poor schmo, with his girlfriend "Donna" by his side, discovers that he only has enough cash to pay for the name "Don." The theme music switches from "Oh Donna..." to "Oh Don..." as the panicky guy runs out of the tattoo parlor. I actually had seen this commercial before but never even noticed the tattoo artist.

But The Dukester did. "Look at that guy," he said excitedly, pointing at the screen. And look I did. The tattoo artist is one sexy ursine dude with great dark facial hair and a menacing look.

In other words, someone we wouldn't mind seeing naked in the pages of this magazine. I don't know how I missed him the first few times I saw the commercial; that's not like me at all. But I guess that's one of the reasons I keep The Dukester

**MEN IN MEDIA

around: he provides this column's checks and balances.

Then came the commercial for the Sonicaid toothbrush system and The Dukester said, "Oh yeah, this guy has a real hairy chest." At first I thought he meant Todd Sussman, the character actor with the Basset Hound eyes who plays the pink-clad Tooth Fairy and who has been around forever. But he meant the actor who plays Mr. Pierson, the Tooth Fairy's customer. While it is true that I had seen the commercial many times, I had never really noticed that the nebbishy Mr. Pierson does indeed have a lot of chest fur, poking up over his pajama top. I think it was at that moment that I realized The Dukester could be equally as obsessive as I am when it comes to hairy men in the media.

Next up was The Energizer Bunny commercial that features an ad parody of Rogaine, with a man touting the wonders of a fictional miracle hair growing drug called Growzan. As The Energizer Bunny pounds his drum in the background, the guy turns around to reveal a large carpet of dark fur on his back. For some reason

the wittke wire

in contemporary US culture, back hair is a real negative flash point for people and the ad plays into the commonly expressed belief that back hair is in some way gross. Not that I really get why, but the Energizer ad is still kinda funny.

Next we landed on some premium channel that was showing "Deep Blue Sea," the Renny Harlin movie that "borrows" many ideas and its advertising design from "Jaws." The Dukester had actually seen "Deep Blue Sea" somewhere along the line and while he said the movie wasn't very good, he loudly sang the praises of newcomer Thomas Jane, a blonde furry fellow with the kind of forearms that always catch my eye. The Dukester was right again.

Away we surfed and landed on an infomercial for The AbSlider. The Dukester and I both groaned in agony (we have us a couple of vulnerable lower backs) as the models did the kind of stretch across a floor that would likely send us into traction. But a couple of the men on the infomercial have very hairy arms and nice chests with recent fur regrowth, which is the positive flip side to the whole chest shaving trend: eventually the fur grows back.

And hey, at the very least, The AbSlider infomercial gives pitchwoman Jenilee — "one season of Three's Company" — Harrison something to do.

Next we landed on the movie channel affectionately known as "Skin-emax" and for good reason: the station has a propensity for showing softcore porn-ish thrillers and mysteries and erotic romances that sometimes feature furry actors grinding lower chakras with silicone-infused actresses. These movies usually feature indistinguishable two or three-word titles like "Double Exposure" or "Point of Impact," have sleazy saxophone-dominated musical scores, and once I start watching them I am often completely hooked in. As a matter of fact, "Point of Impact" featured a gorgeously bearded Michael Ironside as very, very bad man making life miserable for Michael Pare and Barbara Carrera. Michael Ironside being mean is usually plenty of fun to watch.

Over on one of the classic movie stations, we stumbled across "We're No Angels," which is definitely worth seeing for the furry macho man, Aldo Ray. He's sort of like Curly of The Three Stooges but really, really sexy and charming.

Next we landed on a commercial for "Little Nicky," the Adam Sandler movie that, like most Adam Sandler movies, has an appearance by Allen Covert. In the ads for "Little Nicky," Covert is shown in an open shirt with his very furry chest on display. Finally, we settled into flipping between World Championship Wrestling and the World Wrestling Federation. Of course, WCW has Goldberg, who gets two big, throbbing thumbs up from The Dukester and me. They also have the tag teams Disorderly Conduct, with their sexy van dykes and The Harris Brothers, whom I liked a lot. The WWF has Prince Albert, who is hairy the way George "The Animal" Steele was hairy; every generation of wrestling fans needs at least one of those. (Editor's Note: Anybody see "The Man Show" on Comedy Central December 17? They visited Goldberg at home. Hot damn.)

So at the end of a relatively short but highly successful period of channel surfing, The Dukester and I both had an epiphany: Two heads make seeking out hairy, masculine men in the media even more fun. Call it Bear Chasing 69!

Seen any good fur lately? Email wittkewire@hotmail.com and tell Chris Wittke all about it. ☺

well - then, you're right. We haven't featured too many of them here. But if you define "mature" like I do; a man in his physical, emotional, and sexual prime whose age and experience actually enhance his sexuality, then we've featured lots and lots and lots of them in BEAR. Under-30 models are actually the exception to the rule here.

Some men embrace their physical presence and sexuality longer than others. We celebrate that! Unfortunately, I think much of society puts folks "out to pasture" when they reach a certain age, and there are legions of men who I would love to put in BEAR who simply don't see themselves that way any more. Part of some people's maturity is experience and education, and men sometimes reach a point where they don't value "woofs" and physical and sexual validation the way they may have at a younger age.

And that's ok. Doesn't mean we still don't wanna see 'em naked, pulling their butt cheeks apart.

LOVIN' LA VIDA LOGAN

OK, I'll start with the trite cliché; I have never written to a nudie rag before, but yes, yes, and yes, I was so compelled to do so now.

My tastes in men generally gravitate toward chubby bears, but that is not something that I have set in stone. I have fun with all kinds of men, and the men in BEAR suit my solo purposes just fine.

However, with Logan in issue #62, Jesus H. F*cking damn on a bicycle. Yeah... that just about sums it up. That, and my belief that if I had to pick a man that would best sum up what a God should be, it would be Logan.

Thank you SO much for including him! It pretty much made my year.

If you'd like to forward this mushy letter of lustful longing over to Mr. Logan, I'd only be too appreciative.

Thanks again, and keep those chubby bears coming!

Tony
E-Mail

I hear ya Tony. I think Logan's a hottie, too. Took those damn pictures myself; I was so determined to get his burly butt in BEAR. Here's another glimpse. Glad you liked it.

BOOB TUBE BEARS

I have a couple of hot guys I see on TY that I would like to see in your magazine.

1. The guy who plays Jimmy on the CBS show, "Yes Dear."

2. The guy in the 1-800-Flowers ad who is not going to his sister's house for Christmas this year.

3. The bailiff "Joe" on Divorce Court.

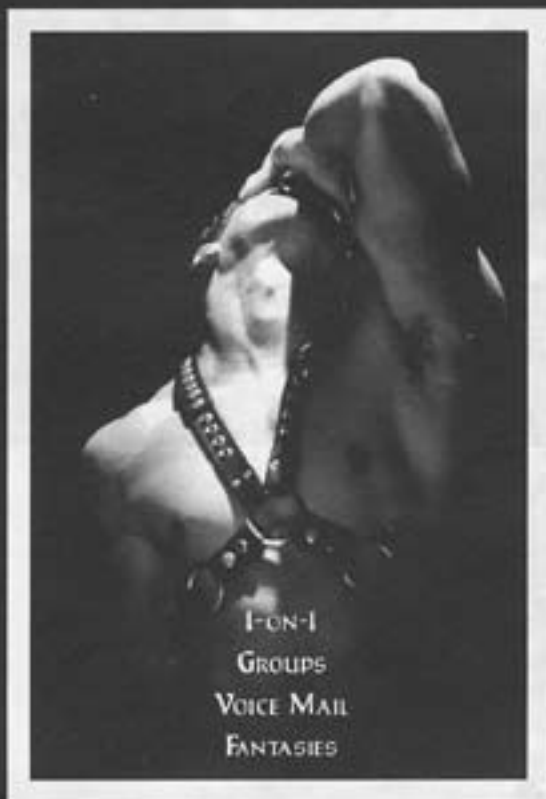

Terry
E-Mail

Tell ya what - I'll have our people call their people and we'll see what we can come up with. Don't turn ted holdin' yer breath there, Terry. Closet doors in Hollywood must have some strong locks on 'em, because lotsa those waiters... err, actors seem to have some real difficulty kickin' 'em open, if you know what I mean. Besides, I think the S.A.G. union pays better'n we do.

Wittke keeps us abreast of who's hot in media, whether they're gay or just confused. There's also a website dedicated to this very hobby - "Fur on Film" can be found at: <http://www.geocities.com/WestHollywood/8069/>. ☺

You might get scared: first Bush gets into the White House, and then Luke comes along and starts to preach the merits of straight people.

Jesus, what the hell's going on?

Well, don't panic, there, Kyle. I haven't undergone some sort of conversion process. In case you become frightened during the discussion, or if the smoke gets too thick in here, your exits are two in the front, two in the rear with four pull-in window hatches located over the wings. Step out leg first and follow the arrows....

Queer people are great, like I'm always saying. And I'm dedicated to my position as a cock-sucking-butt-fucking-victorian-furniture-loving-pinko-liberal-fay-gott.

You should be too. Even if you like IKEA, I still love and support you.

Straight people, on the other hand, are stupid and boring.

And have they not given us just a whole rash of shit over the years? Damn! The hangings, the beatings, the marriage thing, well...damn.

But now we've almost got straight people right where we want 'em. They watch Will & Grace and laugh at our jokes. Homosexuality can come up in conversation and not result in stabbings. That's progress!

Our breeding stock is getting docile and compliant, like good cattle should.

So the sea is calm enough, I think, that we can discuss heterosexuality in a mature way. We're all adults here, aren't we?

Actually, breeders are almost becoming a disadvantaged group these days. After all these years, now they need our help, and we are in a position to lift them out of their pathetic existence. We'll continue to teach them what we know and they'll probably get laid more and everyone will be a lot more relaxed.

But there's a lot we can learn from straight people.

(Now you're getting scared! Floor lighting will automatically illuminate to guide you to an exit.)

First off, from straight people we can learn to laugh. Obviously. Look at their uptight manner of walking and dancing. Not to mention their dating rituals.

We can learn to be a little more patient. Straight people have always had a certain stick-to-it-iveness. Except lately as, in the last few decades they've tried to act more like gay people and bed-hop. The idea that they're supposed to form families and to STAY that way has started to slip from their consciousness just as it's started to enter ours. Funny, huh? But these things come to mind as I enter my middle age and as the adoption of two cats forms the most responsible bond I've yet had. And

HAT'S OFF Life Lessons by Luke FAMILY VALUE

as I realize I can't really ask a gay neighbor to go with me to IKEA because I would then appear too clingy.

We can learn to be sexually frustrated. True art comes from hidden emotions and from shame. Breeders sure have that in the bag. A teasing eroticism that DOESN'T end in a carpet-staining orgy can actually be satisfying. In its own way.

Gay people look fabulous and sometimes straight people don't. Maybe we should relax and get dumpy? Works for them. I see one more gorgeous bubba driving a pickup with a non-gorgeous, amply-buttocked, unkempt wife next to him on the seat....Makes me want to eat potato chips and watch Jerry Springer and not wash my hair. Obviously it's what straight men want in their females, right?

We can learn sports and monster truck smashing. Yes, we can! I know, you're at a loss to understand WHY we'd want to, but the option is there.

We can learn to drive an SUV while plugging a pacifier back into the screaming mouth of a baby.

We can learn the duality that comes from trying to be a groovy grown up while still having to keep our little ones from being afraid of the dark.

We can learn what it's like to have someone start to grow up in our own image, only to watch them veer off onto some path of their own and we can do nothing to stop it.

We can learn the power of heritage: Sounds like a china pattern for a really swank party with movie stars and fabu-

lous drugs, doesn't it? But did you know that heritage actually means generations and generations of people forming a family and serving a sense of continuity?

See? Already their lessons have faded into obsolescence, despite being the basis for life on Earth.

Being home for the holidays with family this last season really taught me a thing or two. I watched the 18 people of my current family, ranging from 64 years to four months. A feast was etc. And tho I myself did not carve the roast beast, I thought about how human families used to all live in one place together, grandparents and toddlers and married straight people, fighting and laughing and lining up for the bathroom. It was warm. The food was good; I laughed harder than I've laughed in years. I learned several key Pokémon and bounced a couple of nieces on my knee so one of 'em could pull my beard and shriek. Felt like heritage. Kids really aren't all that scary, once you get to know them.

Of course, doing some speed and getting fisted is all well and good. But it doesn't further us as a people. It doesn't further anything but the Crisco and paper-towel industries. It doesn't make the world a better place.

If you're smart, you're already figuring out that one of the main difference between straight people and gay people is that straight people have kids. It's a major, life-altering condition that gay men never experience—dogs not quite withstanding. If we man-loving-men started having children that didn't just get flushed down the municipal equalizer, then our own culture and heritage would start to change damned quick. The music would get quieter, the bedtimes earlier. Our morning-after discussions would gravitate toward gurgles and wobbling first steps. To our nerves of steel in handling grown-up manly butt wiping we would add deft forays into vomit, snot and rashes. And you could kiss your oriental carpets goodbye.

It would make us a little more patient as a people, I think.

So. Do I think you should go out and have kids?

Probably not. Way too many humans are being born with no where to go. And I don't want you to miss out on those Tuesday night nipple chews from the back bartender.

I just want to remind you that while we're out fucking ourselves silly, there's other people who are staying home with the kids. From them we can learn a thing or two.

What you do with this is entirely up to you. You can take all of it or none of it.

I just don't want you to be afraid of the dark.

Randy had bought the lumber and millwork company right out of college with money his grandfather had left him. His business degree from college had prepared him for a job in the corporate white-collar world but he could never get the sawdust out of his blood from the time he was a kid. His sharpest memories were of his father and grandfather working in the lumberyards. They would show him what they did and raised him to honour hard work and labour. Randy also remembered the men who worked the yard with their muscles and sweat. It wasn't until he was in his late teens, that he realized his attraction was for men and those memories came flooding back to him in his

college dorm at night, when his roommate was out doing whatever girl he had met, and he had the room alone to jackoff. It seemed only natural to him to return to the kind of business that he liked and where he could surround himself with the kind of men he needed.

He had been an OK football player in high school and did reasonably well in college. He found it hard to keep up the image of macho jock when what he really wanted was to bury his dick in all those muscular butts sharing the showers. After college, he set about making his business a success, but choosing life in a small town with the nearest leather or bear bar two hours away made for some long nights. The long hours running the business kept him from making

the bar drive on a routine basis. He spent hours in a local gym focusing his sexual energy into muscle. Even more hours fantasizing about the men who worked for him. The guys he met in the bar knew him as a competent, dominant top man, but none were willing to make the transition to be his partner and live the small town existence.

Folks in town respected him for his business skill, fairness as an employer and community spirit. But they also wondered amongst themselves about the tall, muscular, furry man who kept to himself and didn't show much interest in the town's women. Rumours persisted about his trips out of town and his occasional male guests. No one seemed to have the nerve to come right out and ask if he was gay and he didn't feel it was necessary to press the point. He flew a rainbow flag at his secluded house and stuck a leather sticker and rainbow flag on the bumper of his truck, still no one asked. People got used to seeing him in his jeans and flannels or T-shirts looking more like a lumberjack at 6'2", than the man who owned a business.

Randy wasn't prepared for the day his chief lathe operator got thrown in jail for domestic abuse. He filled in doing as much of the work as he could himself, leaving the office work to his staff and interviewing for a new man in between orders. He was sitting in his office on a Friday afternoon in his work clothes, when Tim walked in at 5:00 PM with his application. Randy looked up and slowly recognized him as one of his former high school football teammates. Tim held out a big muscular arm to shake Randy's hand. The grip was strong and Tim held it a long time. Randy read through the application form asking questions as he went. Tim wasn't the brightest guy on the team and never made it through college. He had

had a steady stream of jobs over the last 10 years but always seemed to leave for personal reasons. Randy found it difficult to concentrate on the details of the interview as he noticed just how good the man still looked. Tim was a big, solid six footer with short blond hair and a full mustache. The outline of Tim's dick in his jeans and the fact that he had never been married made Randy's dick stir.

No, Randy thought, this man has to be straight. He's just too down to earth and blue collar. Despite Tim's work history, Randy gave him the job. He figured he could teach him what he needed and enjoy the sight of him in the shop. Randy caught Tim's eyes checking him out when he walked him to the office door to let him out. Tim thanked him with a long, hard handshake. As the two men stood in the doorway, Tim jabbed him in the shoulder and said it would be just like old times on the football team. Tim looked up at the taller man and held the eye contact. Randy couldn't help but think the man knows. He locked the door and watched Tim swing himself into an old, blue Ford pickup. The muscles of Tim's legs and butt sharply outlined as he moved. Randy walked to the back office shaking his head and stopped when he saw his reflection in the glass of a display case. His flannel shirt was half unbuttoned showing off the thick mat of fur on his chest and his dick was hard and hanging down his left leg. No wonder Tim stared. Oh shit, he thought, more rumours with which to deal.

That Saturday night, Randy made the drive to the bar, went home with a hot little muscle bottom and gave the man a trip he wouldn't soon forget. The whole time he was putting the man through his paces, he kept thinking of Tim and that juicy butt. The next morning as the man was jacking Randy's big dick, he looked at Randy and said, "buddy, I didn't think you were ever going to stop plowing my ass last night. That was the hottest fuck I've had in ages." Randy just thanked him and pushed his hungry mouth back down on his dick. He thought to himself, yeah, but would you give up city life for a small town. Not likely.

Early Monday morning Tim reported to Randy for training. He stood at the lathe watching every move Randy made and learned to operate the machine quickly and efficiently. Randy stood back to watch Tim solo on the lathe. Tim worked smoothly and quickly. The muscles of his chest and back flexed under the tight cutoff sweatshirt. He used his legs to move the machine and wood and Randy couldn't help wondering what it would be like to bury his tongue and dick in that beefy butt. He had never made a move on any of his employees and thought it a bad practice for business. Watching Tim was making him have second thoughts.

By Thursday afternoon, Tim had caught on to most of the operations. Randy started wondering what his problems had been at his other jobs that had made his work history so spotty. Tim was having some difficulty with one machine and Randy stepped in to help him. As a long board came through the machine, Tim stepped back and found himself against Randy. Neither man moved. Randy finally reached around to loosen the jammed board, forcing their bodies together tighter. Tim turned slightly to his right, his forearm brushing against the big man's crotch. Randy looked hard into Tim's eyes. Tim just took

the board and said, "sorry buddy, I'll get this yet." Tim stepped away to get the next board and Randy noticed a quick catch in his breath.

Friday morning, Tim was doing everything pretty much on his own. Randy watched him and thought he was going to be a good hire. He left him to work the rest of the day with the yard foreman. Randy was counting on his workout to get his mind refocused on his work and off of Tim as a fuck buddy. The gym on Friday was more crowded than usual and Randy passed on the crowded showers. He didn't think he could trust his dick to behave. He threw his bag and work clothes into the other side of his truck and drove home slowly rubbing his hungry dick. His fat cock was fully erect when he came around the corner to his house.

Tim was sitting on his pickup truck tailgate waiting in Randy's driveway when he drove up. He had two 6-packs sitting there and gave Randy a big smile. "Wanted to thank you for the opportunity and for hiring me." He was dressed in a snug flannel shirt with the top two buttons open to show a nice covering of blond fur. His black jeans were nice and tight. Randy noticed the outline of his basket and dick head in the worn material as he climbed out of his truck holding his gym bag and clothes in front of his slightly less erect dick.

"You've been doing a good job. You're a quick learner, but you didn't have to bring me beer."

"I know. I wanted to thank you for hiring me, and thought I might also be able to buy you dinner. I don't know anyone else here anymore and, uh, thought it would be like old times." Tim stood close to Randy and looked over the big man's pecs, nodding seemingly with approval.

"Great, just let me shower and we can decide what we want to do." Randy unlocked his kitchen door and Tim followed him in with the beer. "I'll take one of those now. Hmm, I see, one is missing," and smiled at Tim. Randy caught him checking out his legs. Tim, startled, looked up and grinned.

"Well, they were calling out to me. Man you are in great shape, better than when I saw you at home a couple of times during college. Getting better with age, bud."

"Thanks. You're in good shape yourself. Where you working out?" Randy idly rubbed a hand across his furry pecs showing through his tank top. He really wanted to grab Tim's nips but fought for restraint. Randy's hand stopped at the ring in his left nipple. Oh well, Tim's seen it by now and not said anything, maybe he doesn't care.

"No where yet, need to find a gym now that I am all moved back. Want to get like you buddy?"

"Well, come workout with me some night and see if you like my gym," Randy punched Tim's shoulder, "it's a pretty no-frills place but has a lot of equipment and you can get a good workout."

"I'd like that," Tim took a long drink of his beer and licked his lips. Randy decided he'd better stop before his dick got hard again.

"Hey, let me go and grab a quick shower and we can do something about dinner. Make yourself comfortable, TV's in the family room, I'll only be a few minutes."

Randy left Tim to amuse himself and went up to his bathroom to calm down in the shower, only it wasn't working. He

stood in the shower fisting his hard cock with soap. Maybe if he shot a load he could get through the evening without wanting to throw Tim face down and fuck his butt for an hour.

"Hey, is there anything in particular that you might want for dinner?" Tim's voice at the bathroom door startled Randy back to reality. Shit, he thought, just how much did he see of me? Randy had a wall of clear glass block as one side of his shower; they might have distorted his image enough so Tim didn't see his hard dick.

"Anything, I'll try to think of some suggestions."

"OK, I get into anything," Randy heard Tim's voice fade slightly back into the bedroom. Randy grabbed a towel and tied it around his waist to hide his fading erection. He stuck his head into the bedroom but didn't see Tim. He dried himself and was just about finished, when he heard Tim back at the bathroom door.

"Ready, for another beer, I really don't think I want dinner, right now.....Sir." Randy turned around to find Tim standing in the doorway completely naked, holding two beers and sporting a bouncing erection. "Your choice in videos and the leather hanging in the open closet told me everything I had hoped the moment I walked into your office, sir." Tim handed Randy the beer and held his cold bottle against Randy's pierced left nipple. "I'm your employee, but right now I want to be your fuck buddy."

Tim got on his knees and took Randy's fat uncut cock in his hand. He slowly began working the foreskin and chewed lightly on it. Randy's cock was hard again in a minute and Tim struggled to get his mouth around the thick tool. "I don't remember you having such a fat cock, sir. I'm not sure I can handle one this fat in my ass." His tongue worked the big knob, pressing into the piss slit. His hands felt the weight of Randy's big, full nuts. A big load befitting a big man.

Randy looked down at the blond man kneeling in front of him and moaned. For the first time in a week he noticed how blue Tim's eyes were and that he saw a man whom deeply wanted him right now. He lifted Tim back up. Tim brushed his face against Randy's furry pecs. Randy turned him back to the bedroom. He took Tim's beer and put his with it on the nightstand. "What I really want right now is a hot man who can return the need for closeness I have at this moment." He put his arms around Tim, pulled him close and lightly brought their mouths together. Randy felt Tim take a deep breath, and open his mouth to Randy's tongue. Randy slipped his hand behind Tim's head to make the kiss deeper.

He slowly maneuvered Tim to the bed and lowered the man under his body. Randy's hands found Tim's wrists and raised them above his head, never breaking the kiss. He felt their hard cocks pressing together and Tim's legs slowly move to wrap around Randy's waist. Randy broke the kiss and began working his way down the man's body to his erect nipples. He lightly tongued Tim's left nipple as Tim moaned. He increased the pressure to lightly biting. Tim wanted it harder but Randy needed to find out what else the man wanted.

He ran his tongue through the blond fur on the man's stomach. A faint outline of abs still there under a sexy layer of flesh. Randy found a rock hard seven-inch cock and huge lowhanging balls. He ran his tongue around Tim's balls, making Tim inhale again deeply. He took one ball in his mouth and sucked and pulled, "Yes sir, please work my balls." Randy tightened his right hand around the bottom of Tim's ballsack and gently pulled. "More sir. Please." Randy increased the downward pressure until the man squirmed, just slightly. Enough for now. He raised Tim's legs to see his furry butthole. He wanted the full effect.

Randy lowered Tim's legs and turned the man over onto his stomach. Tim's beefy, blond furry butt was humping as Randy buried his tongue. Tim reached around to pull his butt cheeks apart and give Randy access to his puckered hole. Randy buried his tongue in the man's flesh. Tim's moaning got louder. He worked his tongue and spit into the tight pucker until it was throbbing with need for a big, stiff dick. He finally thought enough of this. He slapped Tim's hard ass, making Tim push it higher. Randy grabbed a rubber from the nightstand. Tim started pushing his ass up against Randy's hard cock. He seemed to be trying to ram it in in one move. "Whoa, buddy. We need to do a little prep work here."

Randy squeezed some lube onto his fingers and worked two of them into Tim's puckered hole. He pulled them out and, with a rubber in place, he pushed his big cock into Tim's hot hole. Tim raised his body so Randy could pound his butt as hard as possible. Randy's balls were slapping against Tim's low hangers while Tim's hard cock slapped against his stomach. The man wanted a faster pace and Randy was too happy to oblige. He held the man by the waist and rammed and plowed his furry butt for 15 minutes. Randy reached up to find Tim's nipples were hard and distended easily three quarters of an inch. He twisted one, then the other. Twisting the right one made Tim fuck even harder. Damn good remote control.

Randy slid his hand down through the fur on Tim's abs, spotted with precum and grabbed the fuckstud's bouncing tool. "No, sir, you have to come first."

"Not if I have a say in this, son." Randy braced one arm on the bed so he could bite the back of Tim's sweaty neck. The smaller man's flattop was matted with sweat and the nuzzling from Randy's stubble of beard made him push up against the man plowing his ass.

"Fuck, no! I'm gonna shoot," Tim yelled and his whole body shuddered as he shot a thick, copious load into Randy's waiting hand. That was all Randy needed. Tim's ass tightening on his cock sent his own into convulsions. He filled the rubber with a long overdue load and rubbed Tim's load through the fur on Tim's chest. Tim collapsed on the bed sucking Randy's cock into his ass further. The two men lay there panting for breath.

"Oh man, I needed that. And to think it was right here at home. I hate making that long drive and never knowing if I'll meet anyone," Tim moaned while Randy twisted to get their mouths together. They lay there in another hot kiss, when Tim's eyes flew open.

"What's wrong?"

"Your dick is still up my ass and hard."

"Yeah, I have this problem with some hot men. It takes a couple of times to kill the thing," Randy said softly, smiling slyly. He gave Tim's ass a little push.

"Oh man, guess I have my work cut out for me here too. Might take some overtime."

"I'm OK with that, if you are?"

"You're the boss, I do whatever you say."

We got to talkin' to the fellas over at Manhunter video one day, and we were going over this and that, and the "Duh" light bulb sorta whacked me over the head like a big ol' shovel, "Hey, you've got some hot, hairy fuckers in those Manhunter videos of yours; what say we get some of those guys onto the pages of BEAR?"

So we got to talkin' about which guys we could feature and who might not be so cool about it. (Some guys move on in life and don't welcome the added exposure a naked picture in BEAR brings 'em. Go figure.)

So, there it started. As long as they keep featuring fine, fuzzy specimens like these (that bushy-bearded redheaded fellow makes my toes tingle), you'll prolly be seeing plenty more Manhunter men in BEAR in the future.

great to see the work of another artist who really "gets" the whole bear thing.

HANK

FICTION BY JAY STARRE

Grant watched the sun sink below the horizon from the framed but glassless window of the fifteenth floor. The city spread out below in all its glory; huge, sprawling and sparkling with the aftermath of a spring rainstorm. The apartments would have breathtaking views when they were completed. Grant stretched and sighed. His body ached after a twelve hour day; he had been at it since seven a.m., and now it was starting to get dark. Overtime was great for the pocketbook, but hard on the body.

"All tuckered out, kid?" He heard a rumbling voice behind him. He turned to face his foreman, Hank. There were only the two of them left in the unfinished skyscraper. Grant felt his stomach churn. He had decided he was going to make his move tonight — no more putting it off.

The two of them had been performing a dance of accidental touching and innuendo for the past several months. Grant had been working with a constant hard-on, his every spare thought revolved around the mass of manliness standing before him.

Their eyes met, Hank's soft blue orbs wide and unwavering. Grant was shaking, just from being alone with the man. He stared at the foreman, the reddish light of the sunset casting a fiery glow around his head. The yellow hard hat framed his square face, strong cheekbones outlined by a trimmed beard that ran from his earlobes down to his chin and around his lush mouth. He was grinning while Grant only stared, frozen and mute.

"What's gotten into you, Grant? You look like you think I'm about to fire you are something!" Hank moved towards the younger man, easily, with the rolling gait of his powerful thighs and confident personality.

Grant shrunk back toward the open window, attempting to quell the trembling of his limbs and the constriction of his throat. He had sworn to himself he would tell Hank how much he wanted him that evening, once he knew they would be alone. But he could not speak. He simply couldn't say a word.

Suddenly Hank had a hand on his arm, a beefy palm that wrapped around Grant's bare biceps like a warm, firm vice. They were so close Grant could feel the heat of Hank's body, smell the odor of a hardworking construction man.

Their eyes were locked, Hank's smile had faded, a quizzical expression replacing it. Grant tried to speak, only managing to emit a strange croak that totally humiliated him. He was just about to break away and run for it, too frightened of his own

desire and the possibility of Hank's rejection.

Then he felt Hank's other hand. It had slid around him and, without any warning, clutched one of the cheeks of his ass. The gloved hand held him firmly, pulling him against the foreman's big body.

"I think you need some help expressing yourself. You want to fuck?"

Grant couldn't believe his ears, or the feel of that gloved hand grasping his buttcheek, kneading it and pulling him forward. The giant chest of the foreman was pressed into his, the tee-shirt Hank wore not enough to prevent his taut nipples from tickling Grant's own chest.

Either he would faint or he would cum. It seemed those were the only two alternatives. Speaking was well beyond his ability at that moment. That he was unable to talk didn't matter a second later as Hank lowered his face and crushed his lips against Grant's, thrusting a fat

tongue deep into his trembling mouth.

Grant felt his mouth invaded, the gloved hand grasping his ass, the bare hand on his arm, and the jabbing nipples sliding over his chest, all in a blur of unbelievable sensation. He moaned, from deep in his body, so deep it seemed to come from the base of his cock, from his roiling nutsack, from the clamping, quivering lips of his ass. He was on fire with lust, and his arms shot out to clutch at the foreman, grabbing his broad muscular back and then groping his beefy ass, pulling him even closer, thrusting his own body into Hank's as if he was fucking him with his whole being.

Hank pulled his face back, his tongue sliding out of Grant's mouth.

"Woah, buddy! You're on fire, aren't you? Let's take our time now that we know what we want! Strip, I want to see your hot body in the buff before I fuck you good."

That gruff voice sent chills up and down Grant's body. The promise of a fucking from this giant stud had his asshole spasming.

He stared up into Hank's soft eyes and, with trembling hands, began to obey the foreman's orders to strip. After months of fantasizing about Hank, he could hardly believe any of this was happening. He was afraid to close his eyes, fearing it might all be just a bizarre dream.

Hank had stepped back, but only slightly. Grant could still smell him, that hefty masculine stench that had his nostrils on

THE WORDS DIDN'T QUITE REGISTER ON GRANT'S SEX-FOGGED CONSCIOUSNESS, BUT THE HAIRY BUTT THAT DESCENDED TO COVER HIS FACE CERTAINLY DID. ASS FUNK FILLED HIS NOSTRILS. HE OPENED HIS MOUTH AND JABBED OUT WITH HIS TONGUE, SEARCHING FOR AND FINDING THE PARTED CREVICE AND THE HAIR-RINGED SLOT. HE WHIMPERED IN JOY AS HIS TONGUE ENTERED THAT SMALL, QUIVERING PASSAGE. HEATED BUTTCHEEKS SMOTHERED HIM, COVERING HIS FACE AND NOSE AND CHEEKS WITH THEIR HAIRY, HARD FLESH.

fire. Grant heard his own loud intake of breath, he was sucking in the smell of Hank, revelling in that odour invading his body.

Grant had his shirt off and was fumbling with the zipper of his jeans. "Nice chest — hairless and smooth, to match your sweet baby face!" Hank laughed, the rumble of his voice so exciting Grant simply could not make his hands obey his mind and finish unzipping.

"Too nervous?" Hank laughed again, watching the young construction worker struggling with his zipper. Two large hands reached out and calmly did the job for him.

Grant moaned again as he felt Hank's paws on him. One gloved hand was reaching into his pants to pull them down while the other gloveless one was casually unsnapping his zipper. Goose bumps crawled up his spine as he felt those hands on his naked flesh. Hank was staring into his eyes as he pulled down Grant's jeans and underwear all at once. Grant turned bright red as his hard cock popped out into the open air.

"Nice rod there, boy! I've seen it stiff and straining against your fly for about the last three months, now it's out rearing its head." Hank had slipped the gloveless hand over the shaft and was stroking it lightly as he leaned over and finished shoving Grant's pants down to his ankles.

"Oh man, man, oh man, that feels so fucking good!" Grant finally managed to speak, but it came out in a rush of barely articulate muttering.

"Get on your knees, Grant. Open your mouth."

Those words sent a chill chasing the goose bumps up his spine. He dropped to his knees, reaching out and grasping Hank's hips as he did. Hank smiled as he unzipped his fly and hauled out a heavy slab of ripe dick meat. He rubbed the head and shaft all over Grant's face with one hand while holding the back of his head with the other.

"What a sweet, handsome stud you are," Hank crooned as he massaged Grant's cheeks with his hard dick. Grant stared up at the foreman with wide eyes and opened up his mouth, offering it to him with a moan and a muffled plea.

"Yeah, open wide!" Hank grunted, the head of his dick suddenly sliding into the heat of the gaping mouth at his waist. Grant had to stretch his lips to accommodate the girth of the large meat, sucking it in with slurps and gurgling sighs.

This was not the first dick to fuck his mouth, but it was the dick he had wanted more than any other. He had never seen it, not out in the open, and now he was sucking it, wrapping his tongue around the oozing head, massaging it with his eager lips. Grant pulled Hank forward, a hand on each big buttock, feeling the power of the man's hips through the tight denim material. He snuffled and gagged and sucked the dick far back into his throat, so excited he managed to open right up without any problem.

"God yes!" Hank groaned. He had let go of Grant's head and was pulling down his own pants. Grant let go of his big ass only long enough for his pants and underwear to slide down over it, then he was eagerly clutching at the giant slabs of hairy buttflesh once more.

Grant sucked in the big dick with increased enthusiasm as he felt the hairy asscheeks of his foreman for the first time. They were hard, but huge, covered with silky fur, sleek and soft and hot. Grant's fingers went crazy, grabbing, exploring, searching up into the deep crack and finding a hot, moist butthole. He rammed a finger right up the palpating slot and shoved forward, driving Hank's dick farther into his throat and nearly choking on it. The tight anus he was fingering responded, quivering and opening up as he eagerly crammed another finger up inside.

"A hot little fucker, aren't you!" Hank laughed above him. Grant was staring up at the man, his eyes adoring and lust-filled.

Hank suddenly pulled his dick out of Grant's mouth. He was grinning as he stroked the flesh in front of Grant and stared down at him. "This thing is going up your ass!"

Grant had no time to contemplate the fact, as Hank immediately shoved him backwards. Grant sprawled on his back, his jeans and underwear tangled around his work boots. Hank straddled him, still stroking his dick while he snickered. Then he was down on his own knees and lifting Grant's legs. He yanked Grant's pants, ripping the underwear as he pulled them off over the work boots. Grant felt his thighs spreading, going back towards his chest. His asshole was exposed to the air, suddenly going into a series of nervous spasms as his thighs were trapped against his chest.

"Nice ass, white and hairless and smooth, just how I like 'em! Very fuckable. Can you take a big dick like mine up there?" Hank grinned, staring down at the spread ass in front of him. Before Grant could reply, Hank had jammed a blunt fingertip inside.

Grant howled, it felt like he was being stabbed to death, the harsh invasion was so abrupt. "Chew on this, it'll keep you quiet!" Hank huffed, shoving the glove from his left hand into Grant's open mouth. Grant's yell was muffled, he tasted leather and wood and dust and felt the finger up his butt driving deeper at the same time.

"I'll spit on it good, don't worry. I'll get you nice and stretched out before I feed you my hard dick!" Hank murmured, his voice husky with passion. He was staring down at the pale ass his finger was exploring, his eyes sparkling. He spit into the crack, rubbing the goo into the center of it, and then used two fingers of his other hand to pull apart Grant's buttring so he could ease another finger into the clenching slot. Grant was struggling beneath him, but in a strained effort to relax his spasming anal muscles enough to allow the two fingers easier access.

Hank spit again, a huge amount of saliva landing directly on Grant's twitching asshole. He added another finger to the others. Grant was hollering into the glove filling his mouth, tossing his head and squirming madly. Three fingers in less than a minute, and Hank was spitting and shoving and twisting them deeper and deeper without any respite.

"Open up that tight little fucker, something bigger is going up there. I know you want it, for all your struggling and complaining. You been wanting it for months, wiggling your plump buns in front of me day after day, brushing up against me, grinning at me and staring at my muscles. You want to get fucked, and you're sure as shit going to get fucked."

As the foreman spoke, he spit again and again, working the goo far up Hank's straining hole with his prying fingers. He was obviously enjoying it, staring down at the smooth butt and grinning, drooling when he wasn't spitting.

Grant stared up at the handsome foreman. His square jaw was framed by a dark beard, his lush lips moist and open. It was growing dark, only the light from the hallway casting a dim glow on the two of them. The floor was strewn with lumber, dirt and dust, discarded wires and plastic. He was getting three fingers shoved up his butthole while he grovelled on the dirty floor. It was exactly what he had been dreaming of, and now it was happening.

With that thought, his asshole loosened right up. He wanted Hank to fuck him, to violate him, to fill his asshole and stretch it and dominate him totally and completely. Hank felt Grant's butthole give in to his fingers, and he laughed out loud.

"I think you're ready for my dick, don't you?" He pulled the filthy glove out of Grant's mouth and popped his fingers out of his stretched asshole at the same time.

Grant felt bereft, empty, his asshole quivering and dripping spit. "Are you ready?" Hank repeated, shoving his hips forward and placing the head of his rocket directly in the centre of Grant's slippery assrim.

Grant felt it there, the big thing poised to fuck him. He was shaking all over, his chest laboring, his heart pounding.

"YES! FUCK ME!" He shouted.

"That's the spirit! What do you want?" Hank laughed, his dickhead just grazing Grant's swollen, sensitive asslips.

"Fuck me, stick your big dick up my butthole, fill me with dick, shove it in me. I want you so bad, please Hank, fuck me!"

Hank began to enter him. Slowly, stretching the violated assrim impossibly. He hawked another good amount over his disappearing dickhead, then did it again, and again. Saliva drooled from the head and shaft as Hank slowly slid it past the spasming anal rim of the up-ended construction worker.

Grant lay back and allowed his body to go limp. Hank was on top of him, his naked thighs pressed into Grant's asscheeks, his hands grasping Grant's shoulders, as he held him firmly. Hank's dickhead was beyond the ring of asshole muscle and was beginning to slide into the channel just past that. It was huge, stretching him wide open, slippery with spit, throbbing in time to Hank's heartbeat.

The pain had been transformed into a powerful ache, an itch

that Grant suddenly wanted massaged and scratched. He lunged upwards with his hips and impaled himself on the giant dick above him. Half of it went inside him.

They both shouted, Grant nearly fainted, heat rushed through his already burning body. Hank rammed deeper, all the way to the balls.

"I'm in you, I'm in your beautiful ass. Now I'm gonna fuck you good!" He gasped.

Grant had reached up and was clutching at Hank's shoulders and back. He felt as if they were one person. His own thighs were mashed back against his chest, Hank was leaning down with his face close to his. His giant dick was buried to the balls, wrapped in heated assflesh. They were one writhing beast.

Hank began to fuck. At first he slid his shaft only an inch or two out, just enough so Grant could feel his assrim quiver, and his prostate pulse. Then the foreman began to pull farther out, followed by a deeper plunge, then another withdrawal. Slow, then faster, building up a rhythm of in and out, until he was pulling right out to the tip of his dickhead, and plunging fully to his balls so they slapped against Grant's spit-soaked asscheeks. They both moaned at first, then began to huff and gasp as Hank's rhythm increased.

"I think you're ready for it now, you're hole is squishy and wide open, you're a hot cunt for my hard dick, aren't you?" Hank groaned in Grant's ear.

"Yeah- yeah-yeah- fuck my hole good, I can take it!" Grant heard his own plea.

Hank reared up and drove his rod to the hilt. "Take it!" he shouted. He began to fuck in earnest, ramming into Grant, shoving his ass all over the floor, clutching Grant's shoulders fiercely as he ploughed like a racing workhorse. Grant was blubbling, moaning, squirming beneath the sweaty flesh enveloping him. His prostate was in a constant state of excitation, his balls were rolling, his own dick was throbbing where it was trapped between their heaving bellies. He felt like one huge open hole, being filled with stabbing fat meat.

Then, he came.

He was truly blubbling, as cum spurted all over his stomach, ran down to his balls and mixed with the spit and assjuices around the dick pummelling his bruised fuckhole.

"Yeah, that's so sweet, I'm fucking the cum right out of you, right out of your hard dick!" Hank shouted, feeling the spray of sticky jizz erupting from Grant's prick. He kept fucking, but with even wilder strokes, lifting Grant's ass and holding him up as he jabbed and thrust in a frantic rhythm.

Grant was floating in a euphoric blur of post-orgasm. His asshole was just a gaping cavern by then, wet and open and conquered. His body was soaked with sweat, his and Hank's, and his own jizz. He smelled sweat and sex, and the dirty floor.

That's it!! "I'm cumming up your poor butthole!" Hank shouted. A river of warm lovejuice filled Grant's ass. He heard his own blubbling moans, and Hank's choked gasps of orgasm.

But it was not over. Hank pulled his spewing dick out of Grant's quivering asshole. He released the fucked-over young

man and then immediately crawled over his body and turned around as he did so. Hank was ripping off his own jeans which had been around his ankles. Cum was still spurting from the end of his purple, glistening knobhead.

"One more thing, I gotta feel your tongue up my asshole, and I gotta feel the insides of your sticky cunt while you eat my ass."

The words didn't quite register on Grant's sex-fogged consciousness, but the hairy butt that descended to cover his face certainly did. Ass funk filled his nostrils. He opened his mouth and jabbed out with his tongue, searching for and finding the parted crevice and the hair-ringed slot. He whimpered in joy as his tongue entered that small, quivering passage. Heated buttocks smothered him, covering his face and nose and cheeks with their hairy, hard flesh.

Then he felt fingers invading his just-fucked asshole. At least four of them. They dug into him, searching, twisting, frigging. He could barely hear Hank's voice through the hairy thighs that were clamped against each of his ears. "What a sweet, jizz-filled pussyhole. Yeah, I gotta finger it deep and feel my own cum up there. Eat my ass while I finger you till you cum again."

Grant realized what was required. His flagging dick began to grow stiff again, even though he had cum only minutes before. The taste of Hank's velvety asshole and the feel of his roughly probing fingers were enough stimulation to get him hard. He writhed beneath the hairy beast squatting on his face, thrusting his hips up into the four fingers raping his wet, used butthole.

Hank was talking, a blur of appreciative words, how he loved Grant's squishy fuckhole, how he loved Grant's tongue way up

his own fluttering butthole, how he would force another load of cum out of him. Grant barely heard any of it. He was concentrating on the beautiful ass being offered up to him. He squeezed the hefty cheeks, pulling them apart so he could ram his tongue into the funky asschannel, licking the swollen buttocks and then sucking on the spasming hole.

He didn't know how long it lasted, he could have stayed there all night, covered by hairy hard man, and offering up his gaping rectum to the foreman's giant hand. His own body betrayed him, his dick suddenly rearing up and shooting another load all over Hank's hairy belly.

They lay together after that, their hands lazily exploring each other's hard bodies, totally naked in the filth of the job site. Far below them the city buzzed in the night, cool air wafted in to caress their naked backs and asses.

"I'm gonna fuck you again, this time with my asshole. I'm gonna fuck your dick with my tight asshole until you fill my guts with your cum." Hank whispered in his ear after a half hour of lazy fondling had brought them back to a state of hard oozing dicks and eager, pulsing anuses.

Grant did not object, he couldn't have objected even if Hank had told him he was going to shove a two by four up his ass. But having his dick up the hunky foreman's sweet asshole, that was a dream come true. You can bet he wasn't going to object.

It was all he could do to hold back a body-ripping ejaculation when that hairy, tight assring enveloped his aching dick for the first time. The next hour was agony.

It was the best overtime of his life.

HEY GUYS - SMELLS LIKE
BED TIME.

Greetings again, net addicts. Did y'all like that last column? I just reread the fucker for the first time since I put it to bed and yer right, it didn't make a lick of sense. I was REALLY grumpy that day, and a little too wound-up. Which is so surprising, cuz ya know, I'm just a big ole bundle of joy most of the time; fuckin' nun-on-roller-skates singin' "Jeremiah was a bull-frog". Yep!

Hopefully you will find this column a little more to the point. But there is one thing from last issue that I would like to make clear. Not to harp on a point or anything, and god forbid I should go off on another shit-list list, but **GOD-DAMMIT, WHAT IS WITH THESE WEBPEONS AND ADULT VERIFICATION CRAP?**

I am so sick and tired of this crap everywhere I turn. They come off all sanctimonious and shit about how they are "protecting kids" - they ain't trying to protect kids from seeing things they ain't supposed to, they're taking kick-backs for using the services. THEY GET PAID every time you use the service! THEY GET PAID every time someone signs up! THEY GET PAID every time you sign-in! If they were really trying to protect kids, they wouldn't be using full-blown porn in the teaser shots. And they certainly wouldn't be giving out "free previews" of their stuff. I mean, how come a kid can see a free preview, but he has to be over 18, and have a major credit card, to see the rest of the site?!

So please, I'm begging you guys, stop using adult verification sites. It's a scam. And it will only go away if people stop using it.

All right, on with the porn...

The first site is located at www.sbr.com - the Italian Bear & Chubby Site. It's a very cool mix of a news and lifestyle kind of site for Italian Bears and admirers, but with great galleries rang-

ing from pure nakedness to full-blown fantasy material. Check out the Barbarians section, which has several great pics of Heinz Ollesch (not nekkid, but who cares?), and also the Butcher's Gallery (is that a Cockney pun?), and the Gladiators section with new pics added monthly. Very well done.

Second up on the list is the home page of Kiddy Bear Final located at www.kiddymur.de. Don't let the name fool ya; this ain't no kid-porn thing. But it is a great gallery site with hundreds of pics of LOTS of different types of guys. The heavy use of frames makes navigation a little tough on a smaller screen, but the sheer volume of new pics more than makes up for it.

And finally, my favorite site this time is easily the BearCrawler at www.bearcrawler.com. These guys are great! Good design, concise topics, they are really trying to create a community page, and it succeeds pretty well. There are the usual news, opinion, and chat (hey, MechanicBear!), and you can sign up for a free email address and an email newsletter. But the best part is the woofinderz; a searchable directory of guys' profiles, many of which include pics and links to their personal websites. I can hear ya sayin' "what makes this one any different from other such sites?"

- well, maybe nothin'. I just really appreciate what guys like this are trying to do; especially when the net just seems full of dickheads out to make a buck and here's a couple of cubs who really seem to want to make a site that will make a difference. Yeah, I know - big softy...

Anyway, I'm outta here. If y'all have any nasty pics of Tank Abbott (nekkid would be nice, but I'd take ANY), send 'em to huntin_pecker@yahoo.com. All the opinions here are my own, and, as always, your mileage may vary. -bubba ☺

Look what Bubba found for us on the web...

VOICE MAIL EXPLAINED

Our BEAR voice mail system is designed to give you access to new friends, true love, or just a good fuck. It works. Remember, if you are placing a personal ad in BEAR, you will automatically be assigned a BEAR voice mailbox.

If you place a personal ad in BEAR, we will send you a letter with information about your voice mailbox, your passcode, directions on how to set up your free voice greeting, and general directions on using the system. But guys, give us a couple of weeks from the day you mail in your ad before you start calling us. We know you're horny, but these things take time.

You can also use our voice mail system WITHOUT placing a personal ad in BEAR. You can call to listen to ads and leave messages for guys. You can even setup your own voice mailbox, just like BEAR advertisers have. If you set up a voice mailbox without placing an ad, callers will hear your ad and can leave messages for you, but BEAR readers won't ever see a printed ad, so you might get fewer responses.

HERE'S HOW IT WORKS:

1-900-DVB-BEAR charges the call to your home phone
or
1-800-347-BEAR buys a block of time with your credit card

When you call, a recording will automatically begin describing instructions and options. These instructions will explain everything you need to know about using our voice mail system. Be patient and allow yourself a minute to hear all the options. A few basic options are explained below:

- Press 1: to create additional mailboxes. These boxes won't be printed in BEAR, so you can be even sleazier or more discreet if you like.
Press 2: to browse ads from other guys by area code.
Press 3: to leave a message for one of the guys whose printed ad you see in BEAR.
Press *: to pick up messages that other guys have left for you.

Remember that once you call and are at the main menu, it is not necessary to listen to all of the options before you make your choice. If you already know how the system works, you may start pressing buttons on your phone right away.

Each classified ad photo has an accompanying advertiser "code." Yeah... it's pretty official-lookin' stuff, ain't it? The first two letters indicate the state where the ad is listed (NW means nationwide. The rest you'll have to figure out for yourself.) And the word to the right of the hyphen identifies the advertiser.

For example, if you went to the ads listed under "Florida", we're bettin' that there's an ad there with "See Photo FL-WHITE BEARD" at the end of it.

Remember, photos only run the first time the ad runs. If you sent us a picture to run with your ad and you don't see it here, chances are we either messed up or our scanner's broken. Call us and we'll try to make it right.

A . J . & D E A N

PHOTOS BY MANHUNTER VIDEO PRODUCTIONS

Once upon a time, there were a couple of fellas named A.J. and Dean. You see, a photographer, anxious to capture some sweaty, sexy fur on film, simply set up his camera and told 'em to "have fun... enjoy each other." Perfunctory how-do-you-do's aside, these two jumped right into stripping each other down, and in no time flat were lickin' and lappin' at each other like a couple of horny dawgs. A.J. seemed to appreciate Dean's boyish qualities as much as Dean enjoyed running his fingers and tongue through the layers of thick, dark hair covering A.J.'s body. As the shutter clicked, these two fellas got more and more into one another, enjoying every crack and sweat-filled crevice of their bodies, in a beautiful celebration of mutual passion, masculine need and unbridled exhibitionism. Wish you'd been there? So do we. The guys at Manhunter had all the fun watching this one. ①
